Chart Summary

This chart was complied by designating a certain number of points to each album for it's chart position each week it appeared on the chart. Thus, concentrated airplay and longevity were taken into account. The cuts mentioned are those that also received a lot of airplay from these giants.

Of course there were more not mentioned, but these were the leaders. **ELTON** is the only artist with more than one album on the chart. **SPRINGSTEEN** is the chart's concentrated airplay champ receiving more airplay in a one week period than any other charted album. It must be pointed out, though, that the champ of the year in this category is **JONI MITCHELL** who just broke the record this week. **JONI's** album, however, has not been out long enough to tally enough points to make this chart. **EAGLES** and **LED ZEPPELIN** share the distinction of holding the number one position longest, chalking up an amazing 6 weeks each. The chart veteran of the year is **JEFFERSON STARSHIP** which appeared on the chart for 26 weeks in 1975.
